

Helping Our Partners Reduce Their Carbon Footprint

Introducing the Sustainable Splendor™ Lite Glove

CHANGING THE WORLD ONE PAIR OF GLOVES AT A TIME

We use U.N. Sustainable Development Goals (SDG) as guidelines and our commitment to responsible stewardship currently revolves around 6 of these goals:

SUSTAINABLE DEVELOPMENT GOALS

ENVIRONMENTAL STEWARDSHIP

SUSTAINABLE SPLENDOR™ LITE

A 90% recycled polyester version of our first-ever eco-based glove.

This unique innovation utilizes a sustainable liner containing **90% recycled polyester**, plus a natural rubber coating. The production process employs significantly less water and energy consumption along with reduced carbon footprint and plastic waste.

EVERY PAIR MAKES A DIFFERENCE

Contains 90% RCS
Certified Recycled
Polyester
Certified by Control

FEATURES

- Highly flexible, soft with excellent dexterity and tactility
- Excellent wet and dry grip
- Crinkle texture channels water away, allowing greater surface area contact grip
- Liner color: White Coating color: Olive green, Green

PERFECT FOR USE IN:

General Maintenance, Construction
Activities, Gardening, Warehousing
and Retail

W5-450(SS)-NL-C

Recycled Polyester liner with Crinkle Natural Latex
Coating. Available sizes S-XXL

FROM MATERIAL WASTE TO WEARABLES

PLASTIC

Unlike polyester, recycled polyester uses PET (polyethylene terephthalate) as the raw material. This is the same material that is used in clear plastic water bottles, and recycling it to create the fabric prevents it from going to landfills and oceans.

- Less soil contamination, air and water pollution
- 33-53% less energy consumption; reduces dependence on petroleum as a fossil fuel
- Gloves created from recycled polyester can be recycled over and over again with no degradation in quality, allowing us to minimize wastage

PACKAGING

Packaging and packaging material is a key area of focus for Midas Safety as we aim to reduce the waste generated and the CO₂ footprint through our Packaging value chains and materials.

Our Commitment to a Sustainable Planet

Our sustainable packaging initiatives are focused on weight reduction and ecological sourcing, based on the 5 Rs principle. We have reduced the gram per inch material (Paper and plastic) used in packaging material, use of recycled paper in product User Information (UI) sheet, use of paper carton made in combination of virgin and recycled paper and use of corrugated carton with reduced number of plies. These initiatives will not only be helpful in reducing our product carbon footprint but will also contribute towards reducing the resultant waste.
